THE NEW YORK DEMOCRACY.

The conservative, national position of the Democratic party of New York may be judged from the following platform of principles adopted by the late Convention at Syracuse. No vote was taken on the Wilmot Proviso, for it was not offered. That it would have been overwhelmingly voted down, is evident from the tone of the resolutions which were adopted by the heavy vote 93 to 27. If the whole Democraby the nearly lock by the prove true to the principles herein set forth, they will not only triumph in November but drive the last nail into the coffin of Free-soilism: Resolved, That the democratic party of New

York are proud to avow their fraternity with and their devotion to the great principles of the democratic party of the Union, as declared at the National Democratic Conventions of 1840, 1844 and 1848, and they look forward in hope and confidence to the complete triumph of that party in 1852.

2. Resolved, That we congratulate the country upon the recent settlement by Congress of the questions which have unhappily divied the people of

3. Resolved, That the Democracy of the State these States. of New York, appreciating the value of union, fra-ternity and concord, standing upon their ancient printernity and concord, and didates with a confident reliciples, present their candidates with a confident reliance upon the united cordial support of their principles in the state and National Councils.

4. Resolved, That though we urge no factious whomsoever its Government may be administered,tration, from the first exhibitions of its proscriptive and intolerable course to the climax of the Galphin claim, as worthy of the false pretenses under which it came into power, and of professions which have been invariably violated.

5. Resolved, That the whig administration of gances in the public expenditures, of evasions and violations of the Constitution, and of an unsound and lavish policy, which have signalized the course of the party, which, aided by dissensions in the demoentic ranks, brought that administration into power: and that the interests of the people and the character of the state demand a speedy return to the wise, safe and approved policy of the democratic administra-

6. Resolved, That devoted to the principles and form of our confederation, ever mindful of the blessings it has secured to ourselves and to mankind, and regarding the citizens of all sections of our country. as members of a common brotherhood, we cherish the Union of the States as the ark of our political covenant, and that we deprecate all sectional agitation at the North or South calculated to impair its sacred obligations or to threaten its perpetuity.

WINE-MAKING. Gather the grapes when very ripe; pick off the unsound and unripe berries. The bunchesare then mashed in a mashing tub, or pressed through a small mill, breaking the skin but not the seed, and thrown into the press, and the screw applied until the skins are pressed dry.

Fermentation is very simple. The juice is put into clean casks, in a cool cellar, and the casks filled within about four or five inches of the bung, and the go. bung put on loosely. The gas escapes, but the wine does not run over. In from two to four weeks, genafter that the wine refines itself, and is ready for botthing or barreling. Use no brandy or sugar, if the grapes are sound and well-ripened. Keep bunged up or corked tight, and in a cool cellar, and the wine will improve by age for many years. Scientific Amer.

NORTH CAROLINA DEMOCRACY. The Democracy of old North State achieved a noble political victory during the last month, electing a democratic Governor by more than 3000 majority over the present whig incumbent, with decided democratic majorities in both houses of the legislature. In fine, our democratic friends in that State have, at last, made a clean sweep of whiggery from State power within their

Borrower! Is this paper you are now reading, your own? Ah! you just borrowed it for a few moments from your neighbor! Just so! But, do you also go to your neighbor for a loaf of bread, a coat, a hat, or a shirt ? No, you answer that is quite a different thing. Different indeed! How so? Your neighbur's paper is as much his own property as any of the other articles we have mentioned. You do not ask to borrow them for you know he would tell you to go and buy for yourself. And, if he did himself and the printer justice he would tell you to buy a newspaper for yourself, too. No man has the right to the use of newspaper, unless he pays for it, any more than he has a right to wear his neighbor's clothes or eat his bread. Chambersburg Int.

CALIFORNIA. The Senate has passed a bill making temporary provision for the discovery and working of the gold mines, and preserving order in the gold-mine districts of California. It provides for the appointment of gold-mine agents for different localities, and also for Engrossing Clerk to the ensuing Legislature of North as general superintendents of gold-mines; authorizes these agents to grant permits to American citizens. and to Europens declaring their intentions to become such, to work particular spots in the placers or mines, each permit for a placer being for 30 feet square, and for a mine 210 feet square-no individual or company to have more than one permit at a time. Double permits are granted to the discoverers of new placers or mines, with pre-emptive rights for 30 days.

GREAT REJOICING. By whom? And for what? By Southern Editors and Southern men ! For nothing; unless they are for the North against the South. We do contend if we understand the matter at all, that the South has gained nothing by the passage of those Bills, that there has been so much glorification over by southern Editors and Southern men. In fact, we think the recent action of Congress is calculated only to stimulate Northern Abolitionists to go still farther in their mad and wicked career. They are enduced to believe, rather than dissolve the Union, we of the South will submit to any and

We would advise all such to go North and live with their Northern allies-for the time may come, and that time may not be very far distant, when they will be looked upon as traitors and tories to the South, telling the Southern people that this is a time to rejoice when their joy ought to be turned into sadness and deap dread for the future. Every moderate and order-loving man of the South, whose sensibilities are not deadened by interest, or whose intelligence is not become the insanity of partizanship, is roused at the continued attempts which are being made, to overthrow Southern institutions. Every day old associations are being destroyed. Every day old party ties are being broken. Men, who for twenty years have been separated, are now coming together.
